Your editorial changes stimulated yet another re-write of the proposed Notice. . copy attached. Re your query. . . the system does have a record for each Agency employee. The whole package of bio data is in the computer. We would like the approach in the third para to stay somewhat in the order proposed. . . the primary purpose of the system is to provide the research, info services with the reduction in costs and time only a bi-product of use of the system.
